Europeans with disabilities face all kinds of barriers in the labour market.
HOW do we overcome these barriers and achieve full employment for all?

Information is the first step to removing barriers and improving employment opportunities for everyone.

SocialDialogue.net provides you with Europe-wide information about innovative practices in job-training, equal-opportunity hiring, employment practices, diversity management and much more. You can:

- **Search the SDnet Projects Database** for information and results from innovative employment and disability projects
- **Visit the SDnet Library** for key documents
- **Read news items**, and learn about policies, good practices and innovative developments at National and European levels
